**WEBINAR**

# **ITALIANI ALL'ESTERO**

The Italian Parkinson's and Movement Disorders Society/LIMPE-DISMOV has scheduled a series of Webinars starting on 28 September involving Italian neurologists living abroad in order to consolidate relations, create scientific collaborations to stimulate, especially young people, to gain experience also in foreign centres dealing with movement disorders by strengthening scientific collaborations and exchanges for Fellowships of young researchers between Italian and foreign centres.

**Tuesday, NOVEMBER 7, 2023**

**5.00pm/6.00pm**

## **Parkinsonism and Dementia**

Chairman: C.E. Cicero (Catania, Italy)

Speaker: R. Savica (Rochester, USA)

Parkinson disease and Parkinsonism are conditions that can be associated to cognitive Disorders. In particular, cognitive complaints can be seen earlier in the diagnosis of a Parkinson disease and related disorders but also as part of the progression of the disorders. The aging of the population as well as our diagnostic ability is increasing the opportunity to see cognitive disorders as an integral part of this group of diseases. In addition, the advent of advanced neuroimaging can also further explain the different phenotype of the disease and can also dictate different approach from medication management standpoint. Ultimately, most of physicians are indeed facing a number of conditions that may have different pathology or multiple presentation of different diseases.
